The Company applies Vietnamese Accounting Standards and supplement documents issued by the State. The consolidated financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current accounting system.

IV - ACCOUNTING POLICIES

1. Exchange rates which are applied in accounting

a. Real exchange rates for foreign currency transactions in period

For the first quarter of 2025 ending March 31, 2025

Unit: VND

+ Real exchange rate when buying or selling foreign currency (spot contracts of foreign exchange sale, forward contracts, futures contracts, options contracts, swap contracts) : is exchange rates concluded in contracts of foreign exchange sale between enterprises and commercial banks;

If the contract does not specify the exchange rate of payment, enterprises shall record in accounting books in accordance with the following principles:

- + Real exchange rate upon capital contribution or receipt of contributed capital: is exchange rate of purchase of foreign currency of the bank where enterprises open the account to receive capital from investors at the date of the contribution of capital;
- + Real exchange rate upon recording receivables: Is exchange rates of purchase of commercial banks where enterprises expect to conduct transactions at the time of incurred transactions;
- + Real exchange rate upon recording liabilities: Is exchange rates of sale of commercial banks where enterprises expect to conduct transactions at the time of incurred transactions;
- + For purchases of assets or expenses paid immediately in foreign currency (not through the accounts payable), the real exchange rate is the rate of purchase of commercial banks where enterprises make payments.
- + Specific identification real accounting book exchange rate: is exchange rate upon recovery of receivable, deposit or settlement of debts payable in foreign currencies, determined according to the exchange rate at the time of incurred transactions
- + The weighted average exchange rate is exchange rate used in credit side upon payment in foreign currency
- + All sums of exchange differences are recorded immediately in financial income (if gain) or financial expense (if loss) at the time of incurring.

b. Real exchange rate upon re-determining accounts derived from foreign currencies at the date of the consolidated financial statements

- Real exchange rate upon re-determining accounts derived from foreign currencies classifies as asset: is exchange rates of purchase of commercial banks where enterprises regularly conduct transaction at the time of the consolidated financial statements. - Financial assets which are classified at fair value through the Income Statement are the financial assets held for trading or are classified at fair value group the result of the Income statement at the initial recognition;
- Held-to-maturity investments are the non-derivative financial assets, including fixed or with determined payments, and fixed maturity which the company has to be willing and able to hold till maturity date;
- Loans and receivables are the non-derivative financial assets, including fixed or with determined payments, and non-listed in an listed market;
- Financial assets available for sale are the non-derivative financial assets which are determined as available for sale or not classified in any of the other categories. These assets are measured at fair value through the Income statement, including held-to-maturity investment, loans and receivables.

The classification of financial assets depends on the purpose and nature of the financial assets and is determined at the initial recognition.

The financial assets of the Company include cash and short-term deposits, accounts receivable, other receivables, loans and listed and non-listed financial instruments.

These financial assets are recognized at the acquisition date and not recognized at the date of sale. All financial assets are recognized initially at cost plus directly attributable transaction costs.

b. Financial liabilities and owner's equity instruments

Financial Instruments are classified as Financial Liabilities or owner's equity instruments at the initial recognition and accordingly with its nature and definition.

According to the Circular No. 210, the Company classify financial liabilities as below:

- Financial liabilities which are recognized at fair value through the Income Statement are financial liabilities held for trading or classified at fair value group through the result of the Income Statement at the initial recognition;
- Other financial liabilities are determined by amortized cost is determined by the value of the initial recognition of financial liabilities minus the repayment of principal, plus or minus the cumulative allocation the actual interest rate method, the difference between the initial recognition value and maturity value, subtract deductions (directly or through the use of a backup account) by reducing the value or by irrevocable.

The classification of financial liabilities depends on the purpose and nature of the financial assets and is determined at initial recognition.

The financial liabilities of the company include account payables, other payables, borrowings and debts.

The classification of financial liabilities depends on the purpose and nature of the financial assets and is determined at the initial recognition.

Owner's equity instruments: A contract demonstrates the remaining value of company's assets after deducting all obligations.

For the first quarter of 2025 ending March 31, 2025

Unit: VND

Offsetting of financial instruments: Financial assets and financial liabilities are offset with each other and the net amount presented in the Balance Sheet if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

27. Principles and methods of preparation of the consolidated financial statements

a. Accounting method in business combination through multiple stages and recognition of profit or loss when there is a change in ownership ratio

The results of operations of a subsidiary are included in the consolidated financial statements as from the date on which the parent to have control of the subsidiary and ceased from the date on which the parent ceases to have control of the subsidiary. An investment in an enterprise should be accounted for in accordance with VAS Financial Instruments: Recognition and Measurement, from the date that it ceases to fall within the definition of a subsidiary and does not become an associate.

Initial investment and additional investment in subsidiary:

Parent's ownership and non-controlling interest ownership in identifiable net assets of subsidiary at the acquisition date is presented at their fair value.

After controlling for a subsidiary, if the parent continued to invest in a subsidiary to increase its holding rate, the difference between the additional investment cost and the book value of the additional net assets of subsidiaries must be recognized directly in the undistributed earnings and recognized as equity transactions.

Divestment at subsidiary:

The difference between the proceeds from the divestment of a subsidiary and the net assets of the subsidiary which is divisible plus the undistributed goodwill is recognized immediately in the period in which it arises, follow rules:

- If the divestment transaction does not cause the parent company to lose control of the subsidiary: all the above differences are recorded in the "Retained earnings after tax" in the balance sheet.
- If the divestment leads to the parent company losing control of the subsidiary: all the above differences are recognized in the consolidated income statement. Investments in subsidiaries are accounted for as an equity investment using the equity method since the parent company no longer controls the interest of the subsidiary.

Subsidiary, affiliated to buy treasury shares:

- When a subsidiary acquires treasury shares from non-controlling interest, the percentage of ownership of the parent in the net assets of the subsidiary will increase. However, after the subsidiary purchases treasury shares, the net asset value of the subsidiary company held by the parent may increase or decrease compared to that before the subsidiary purchases treasury shares depending on the purchase price of the treasury shares. The parent company must determine its share of the net assets of the subsidiary at the time before and after the subsidiary purchases treasury shares. The difference in net assets is recorded directly in the "Retained earnings after tax" of the consolidated balance sheet;
- When an affiliated company buys treasury shares, the ownership ratio of the investor in the net assets of the affiliated company will increase and, if sufficient for control, the investor becomes the parent company. The affiliated company becomes a subsidiary.
- When a subsidiary buys back treasury shares from non-controlling shareholders, the Parent Company's ownership ratio in the Subsidiary's net assets will increase.

For the first quarter of 2025 ending March 31, 2025

Unit: VND

However, after the Subsidiary purchases treasury shares, the net asset value of the Subsidiary held by the Parent Company may increase or decrease compared to before the Subsidiary purchased treasury shares depending on the purchase price of the shares. treasury vouchers. The parent company must determine its ownership share in the net asset value of the Subsidiary at the time before and after the Subsidiary purchased treasury shares. The difference in that net asset value is recorded directly in the target "Undistributed profit after tax" of the Consolidated Balance Sheet;

Subsidiary company invests in parent company:

For subsidiaries not restricted by law when buying back the parent company's shares, the accountant must present the book value of the subsidiary's shares purchased by the parent in the item "Treasury shares" of the consolidated balance sheet. Based on the accounting balance of the subsidiary, the accountant recorded the decrease in the value of the parent's shares held by the subsidiary.

b. Non-controlling interest

The benefits to the parent and non-controlling interest in the subsidiary include direct and indirect interest acquired through other subsidiaries. The determination of the parties' interests is based on the respective proportion of their respective capital contributions (directly and indirectly), unless otherwise agreed.

Non-controlling interest is presented in the consolidated balance sheet as a separate item of equity. Ownership of non-controlling interest in the Company's income statement must also be presented separately in the consolidated statement of income.

Non-controlling interest includes the interest paid to the non-controlling shareholders at the date of the initial business combination and in the movements in equity since the date of the business combination. Losses incurred in subsidiary must be allocated to the share of non-controlling shareholder, even if the loss is greater than the share of non-controlling shareholders in the net assets of the parent

c. Method of eliminating intra-group transactions

The balances of the accounts in the consolidated balance sheet and the income statement and expenses on the consolidated statement of income are entirely eliminated.

SAO MAI GROUP CORPORATION

SOCIALIST REPUBLIC OF VIETNAM Independence - Freedom - Happiness

An Giang, April 29, 2025

No: 0426/2025/ASM-PKT (V/v: Explanation of Consolidated financial statements for the first quarter

of 2025)

Messrs:

- The State Securities Commission of Vietnam
- Ho Chi Minh City Stock Exchange

Sao Mai Group Corporation (Stock Symbol: ASM) hereby explains the fluctuations in business performance reflected in the consolidated financial statements for the first quarter of 2025 as follows:

Explanation of the difference in business results between the consolidated financial statements for the first quarter of 2025 and consolidated financial statements for the first quarter of 2024:

Unit: VND

Item	Consolidated financial statements for the first quarter of 2025	Consolidated financial statements for the first quarter of 2024	Difference	Rate of increase/Decrease (%)
Profits after enterprise income tax	37.902.501.071	75.555.053.271	(37.652.552.200)	(49,83%)

The primary reasons for the differences are clarified as follows:

- Enterprise administrative expense increased by 18.83% equivalent to VND 13,512,961,739 due to the operating costs to put Lamori resort into use and some other management costs not capitalized into projects.
- Financial expense increased by 15.48% equivalent to VND 23,432,319,896 due to loan interest and exchange rate differences.

This concludes the explanation of Sao Mai Group Corporation about the consolidated financial statements for the first quarter of 2025.

Sincerely,

Recipients:

- As above
- Archive: Clerical Department.
